

The No-Call list has been wonderful for my busy family. No more tying up my phone line because of telemarketers calling me for things I don't want or need! When the phone rings now, I can feel pretty certain that it's a call that I want. PLEASE, if you change anything, make it more difficult for agencies to call - some so called "charitable" organizations don't get the hint when you tell them to remove you from their lists!! Thanks!
